Career Objective

Front-End Developer with hands-on experience in Angular and modern web technologies. Skilled in building responsive, user-friendly web applications and collaborating within professional teams to deliver high-quality solutions. Passionate about continuous learning and improving technical and problem-solving skills.

Education

Institute of Culture and Science, Faculty of Computer Science

Sept 2022 – June 2026

Experience

Front-End Developer (Four Software)

Feb 2025 – Present

- Collaborated with a multidisciplinary team on 15+ web development projects, delivering each within sprint deadlines, focusing on front-end development.
- Improved user engagement by 70% on Quran learning platforms by optimizing interface and responsiveness.
- Participated in agile workflows, including sprint planning and code reviews, to ensure timely delivery of project milestones.
- Implemented responsive UI features, increasing user retention by 60% across web platforms.

Courses

NTI MEAN Stack Diploma

Dec 2024 – Jan 2025

- Gained comprehensive training in MEAN stack development, focusing on MongoDB, Express.js, Angular, and Node.js through hands-on projects.

Manara Front-End Course

Aug 2024 – Sept 2024

- Developed proficiency in front-end development techniques, including advanced JavaScript, responsive design, and modern frameworks.

Front-End Development Course, MEC Academy

Feb 2023 – Aug 2023

- Acquired hands-on experience in front-end technologies through various projects, focusing on HTML, CSS, JavaScript, and Angular.

Projects

Personal Portfolio

[Personal Portfolio](#)

- Designed and developed a personal portfolio website to showcase projects and skills with a focus on user-friendly interfaces.
- Key Features: Responsive design, project showcases, and contact information integration.
- Technologies: HTML, CSS, JavaScript

Alessra (LMS)

[Alessra \(LMS\)](#)

- Developed a responsive Learning Management System (LMS) platform for online education and course delivery.
- Optimized the user experience for students and instructors across all devices.
- Key Features: Course enrollment, lesson management, student dashboards, progress tracking, instructor profiles, and learning resources.
- Technologies: HTML, CSS, JavaScript
